

# Welcome To The San Diego Xamarin User Group Kick-Off

March 12th, 2015

**Seamgen**  
@Seamgen

By utilizing [#Xamarin](#) we build for [#iOS](#),  
[#Android](#), [#Windows](#) & [#Mac](#) with a single,  
shared C# codebase. [Seamgen.com/work](http://Seamgen.com/work)

7:00 PM - 10 Mar 2015

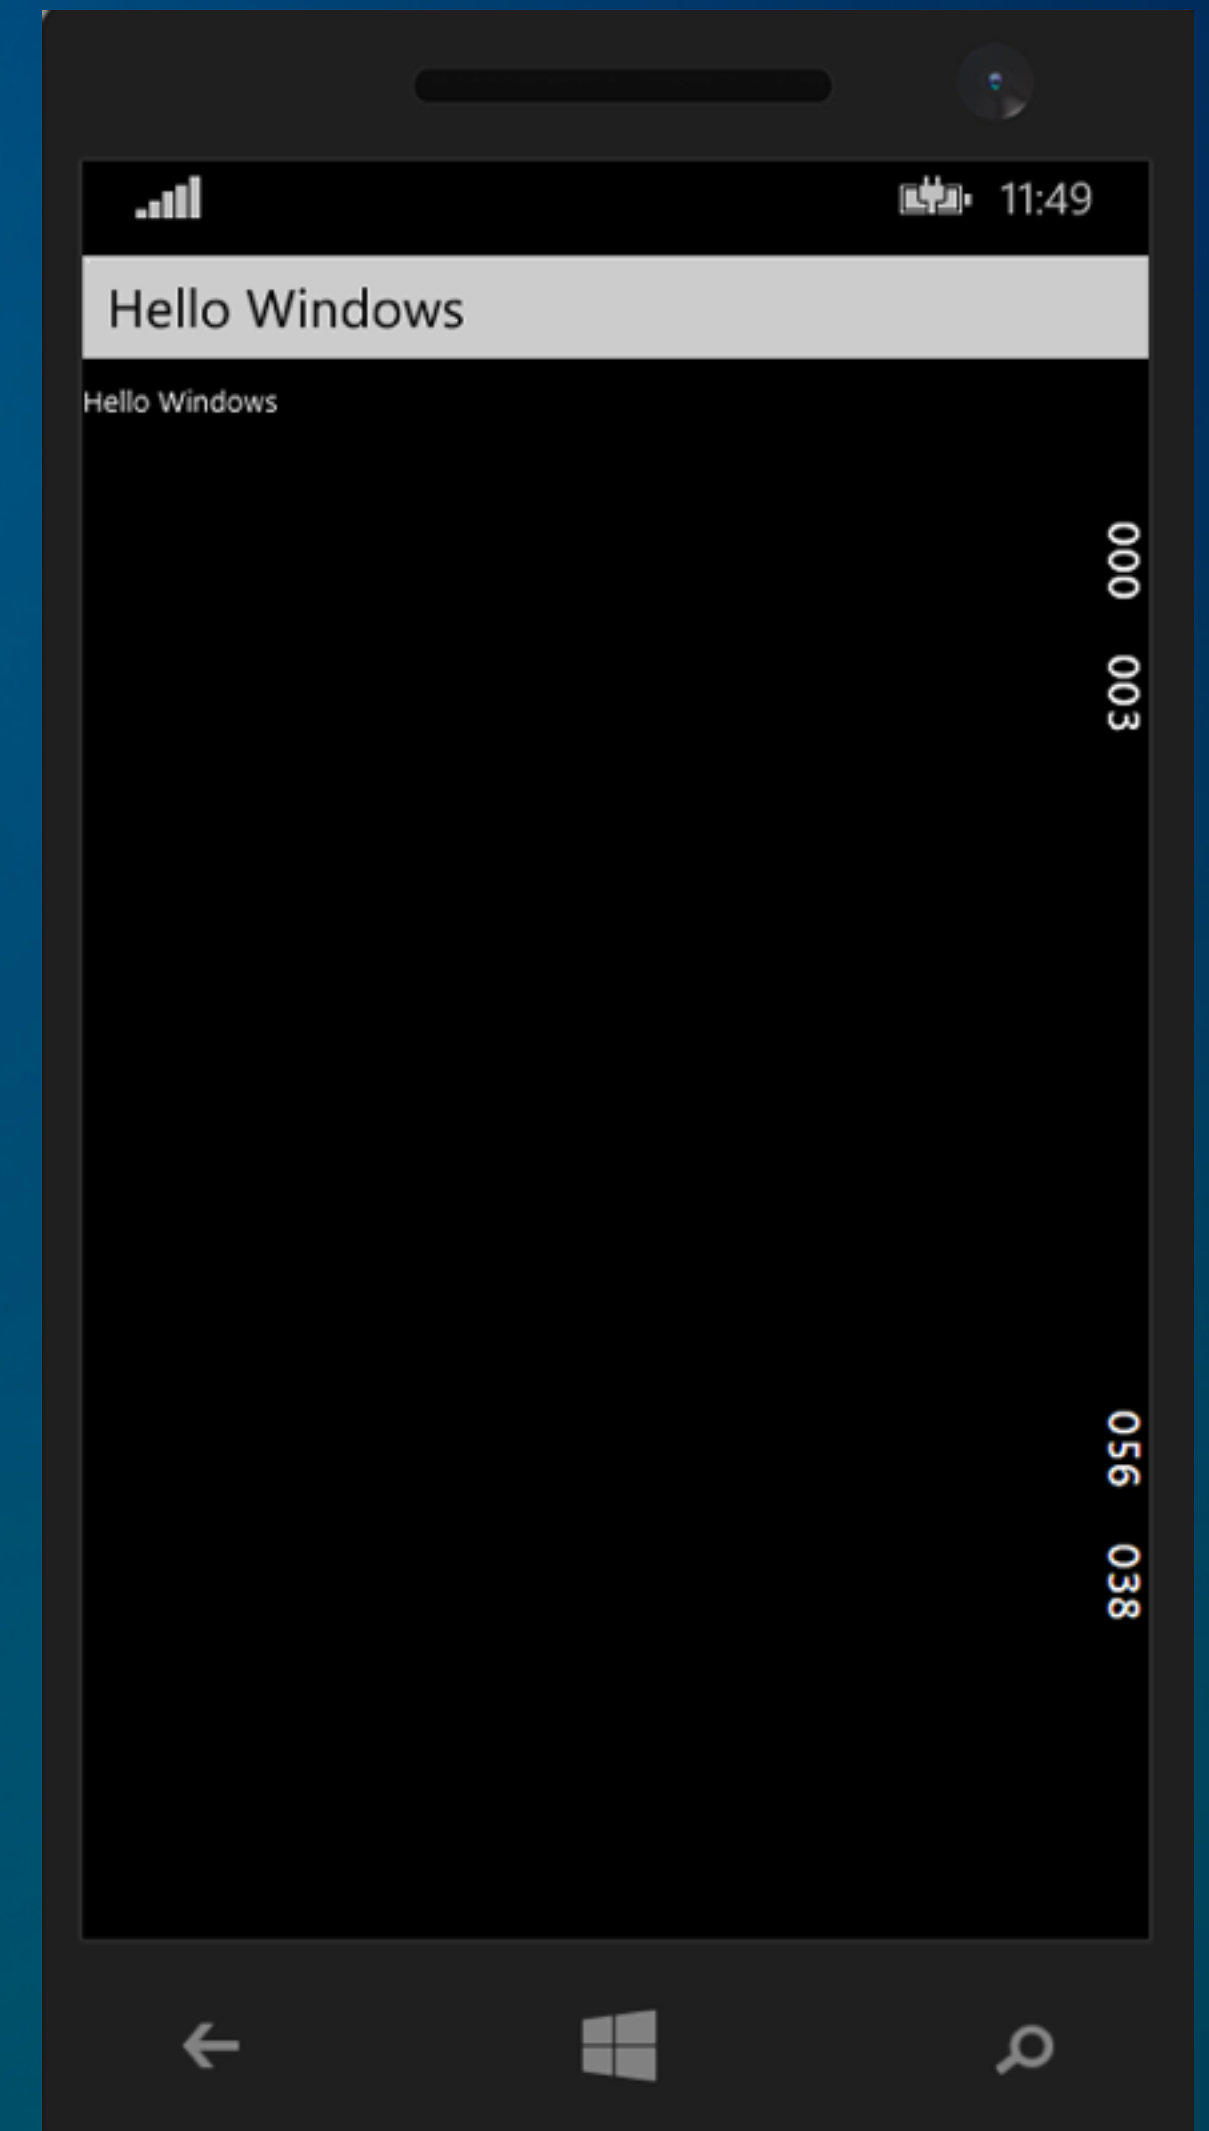

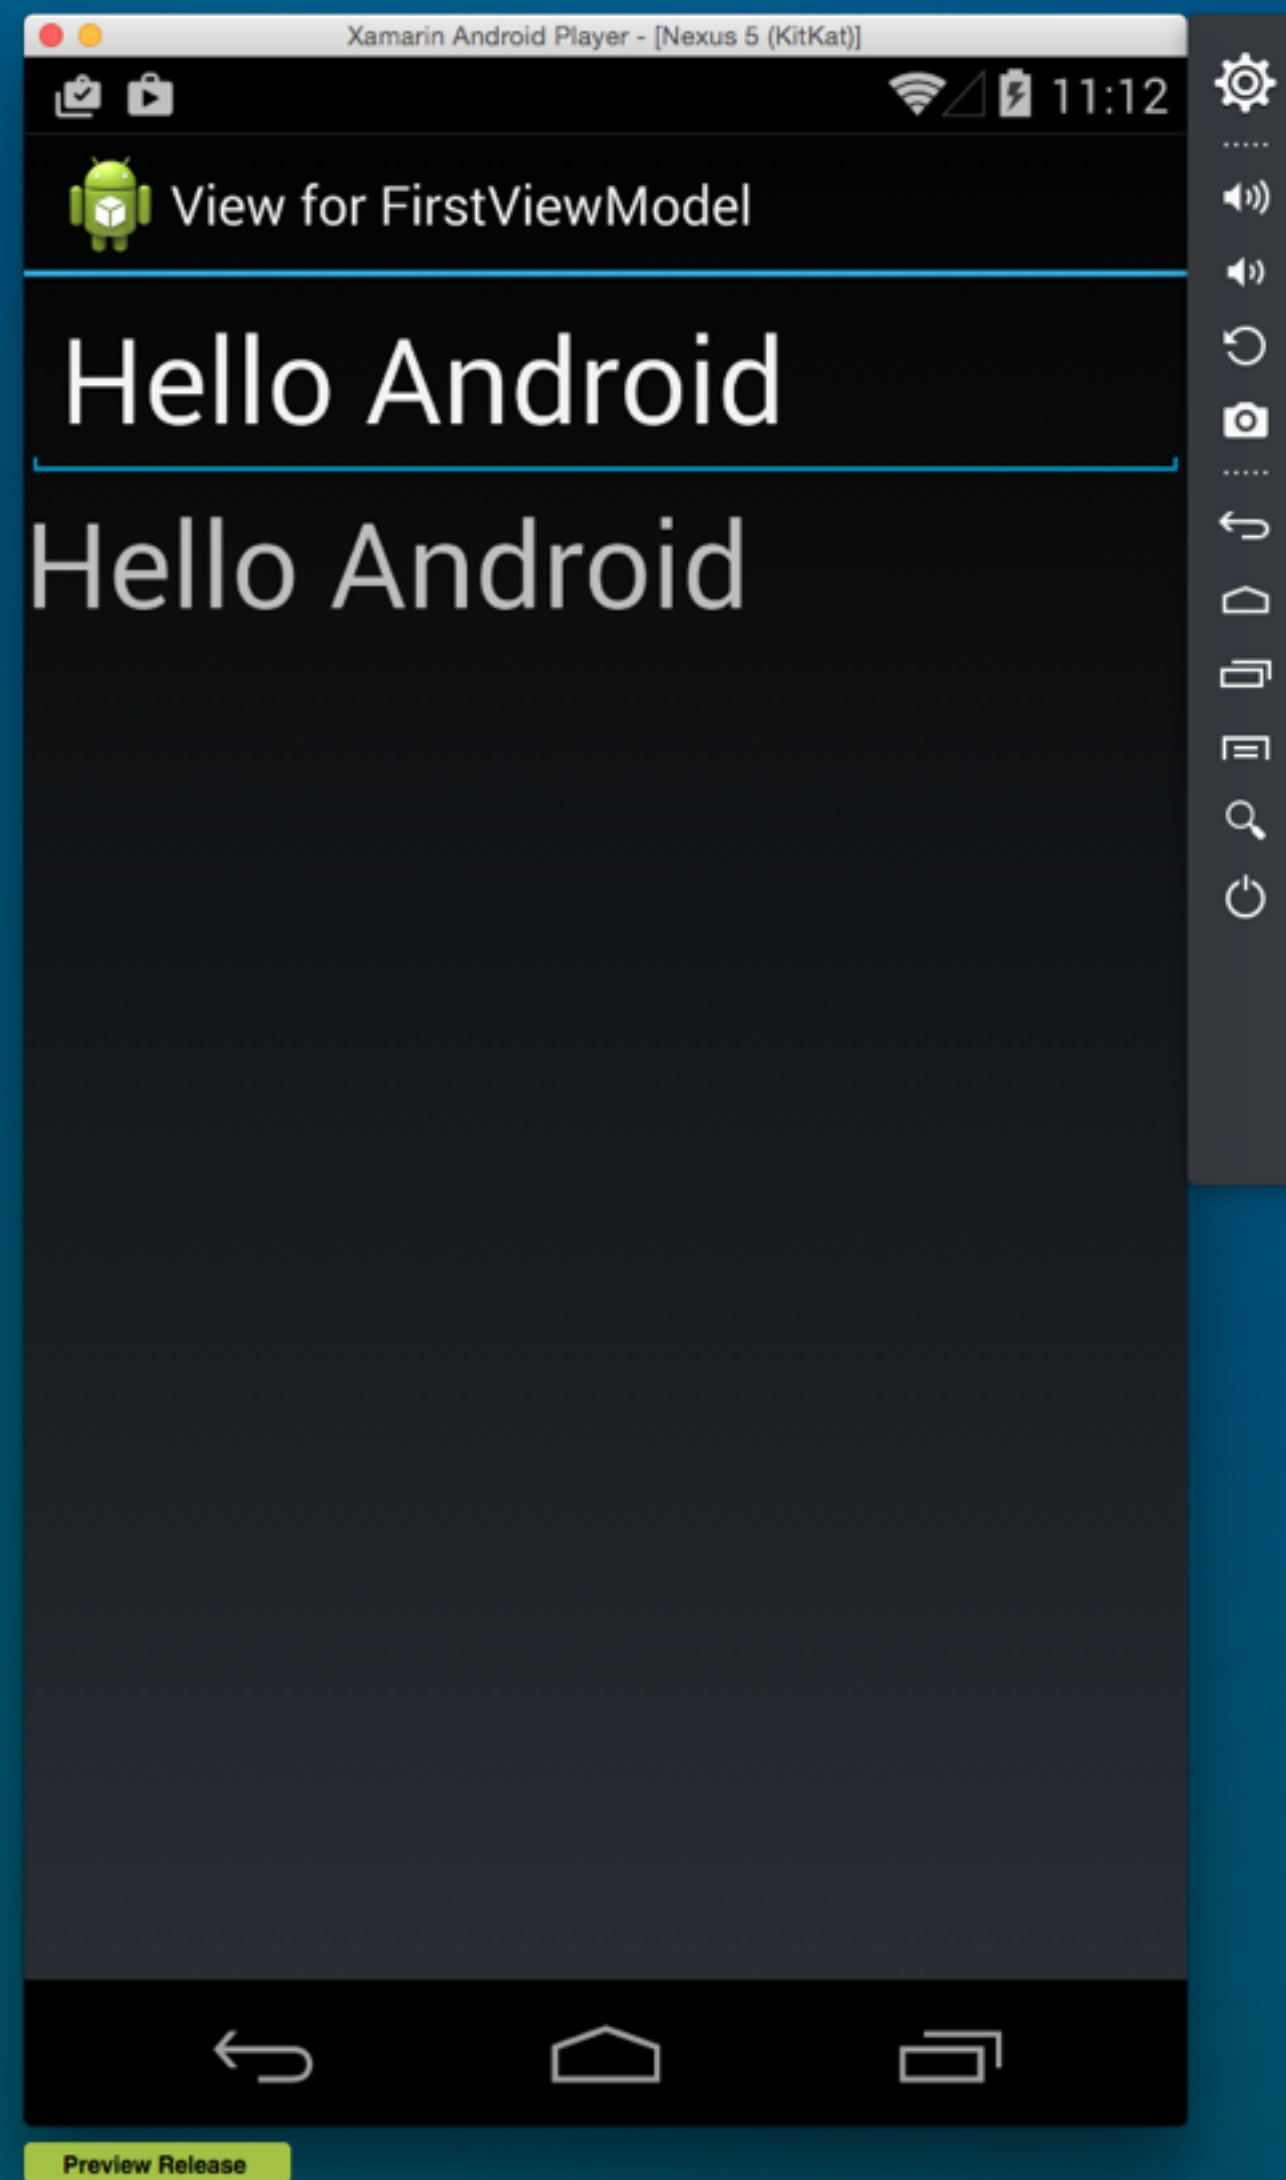

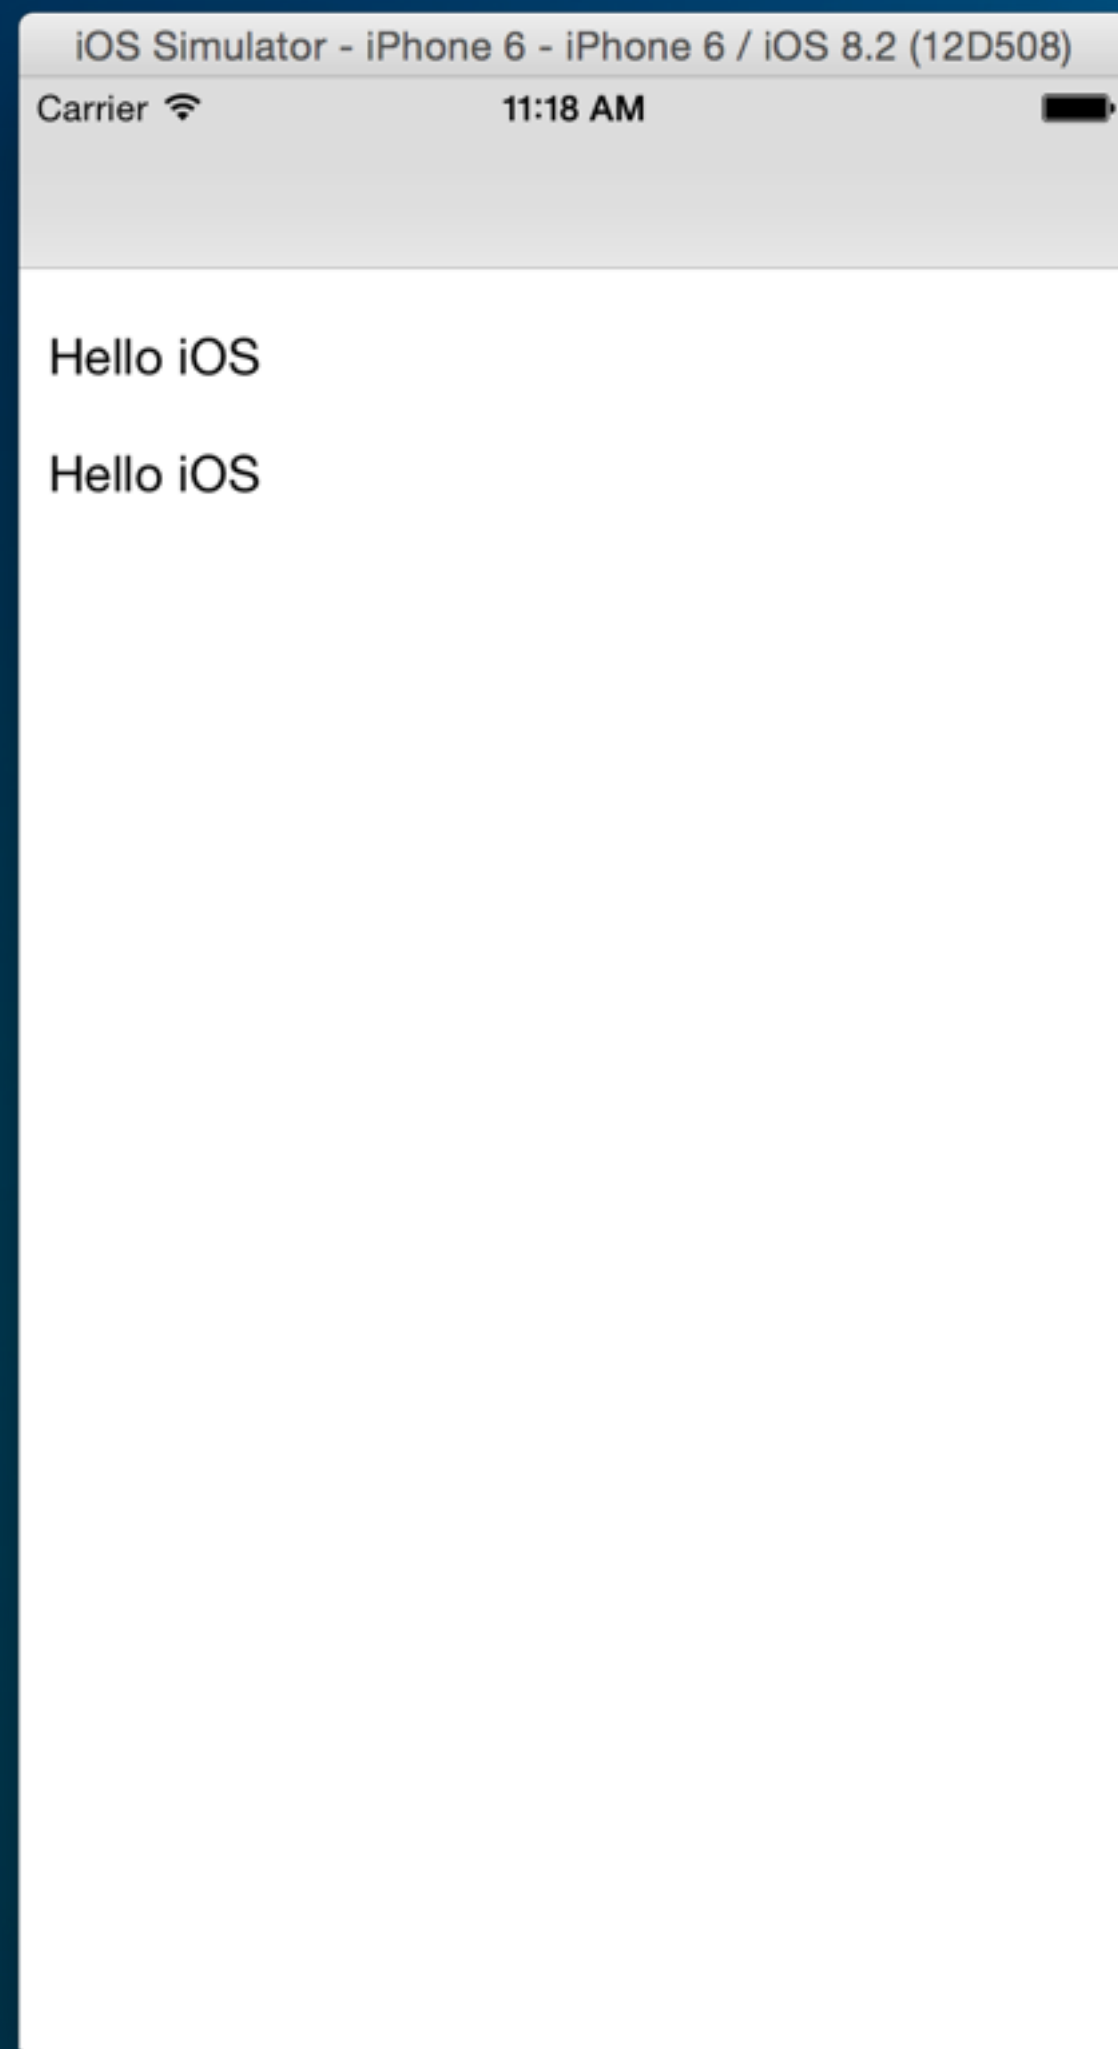

# Agenda

1. Lets build an Awesome App
2. Cross Platform Solution Management
3. Pros/Cons
4. Demo
5. Q&A
6. Bonus

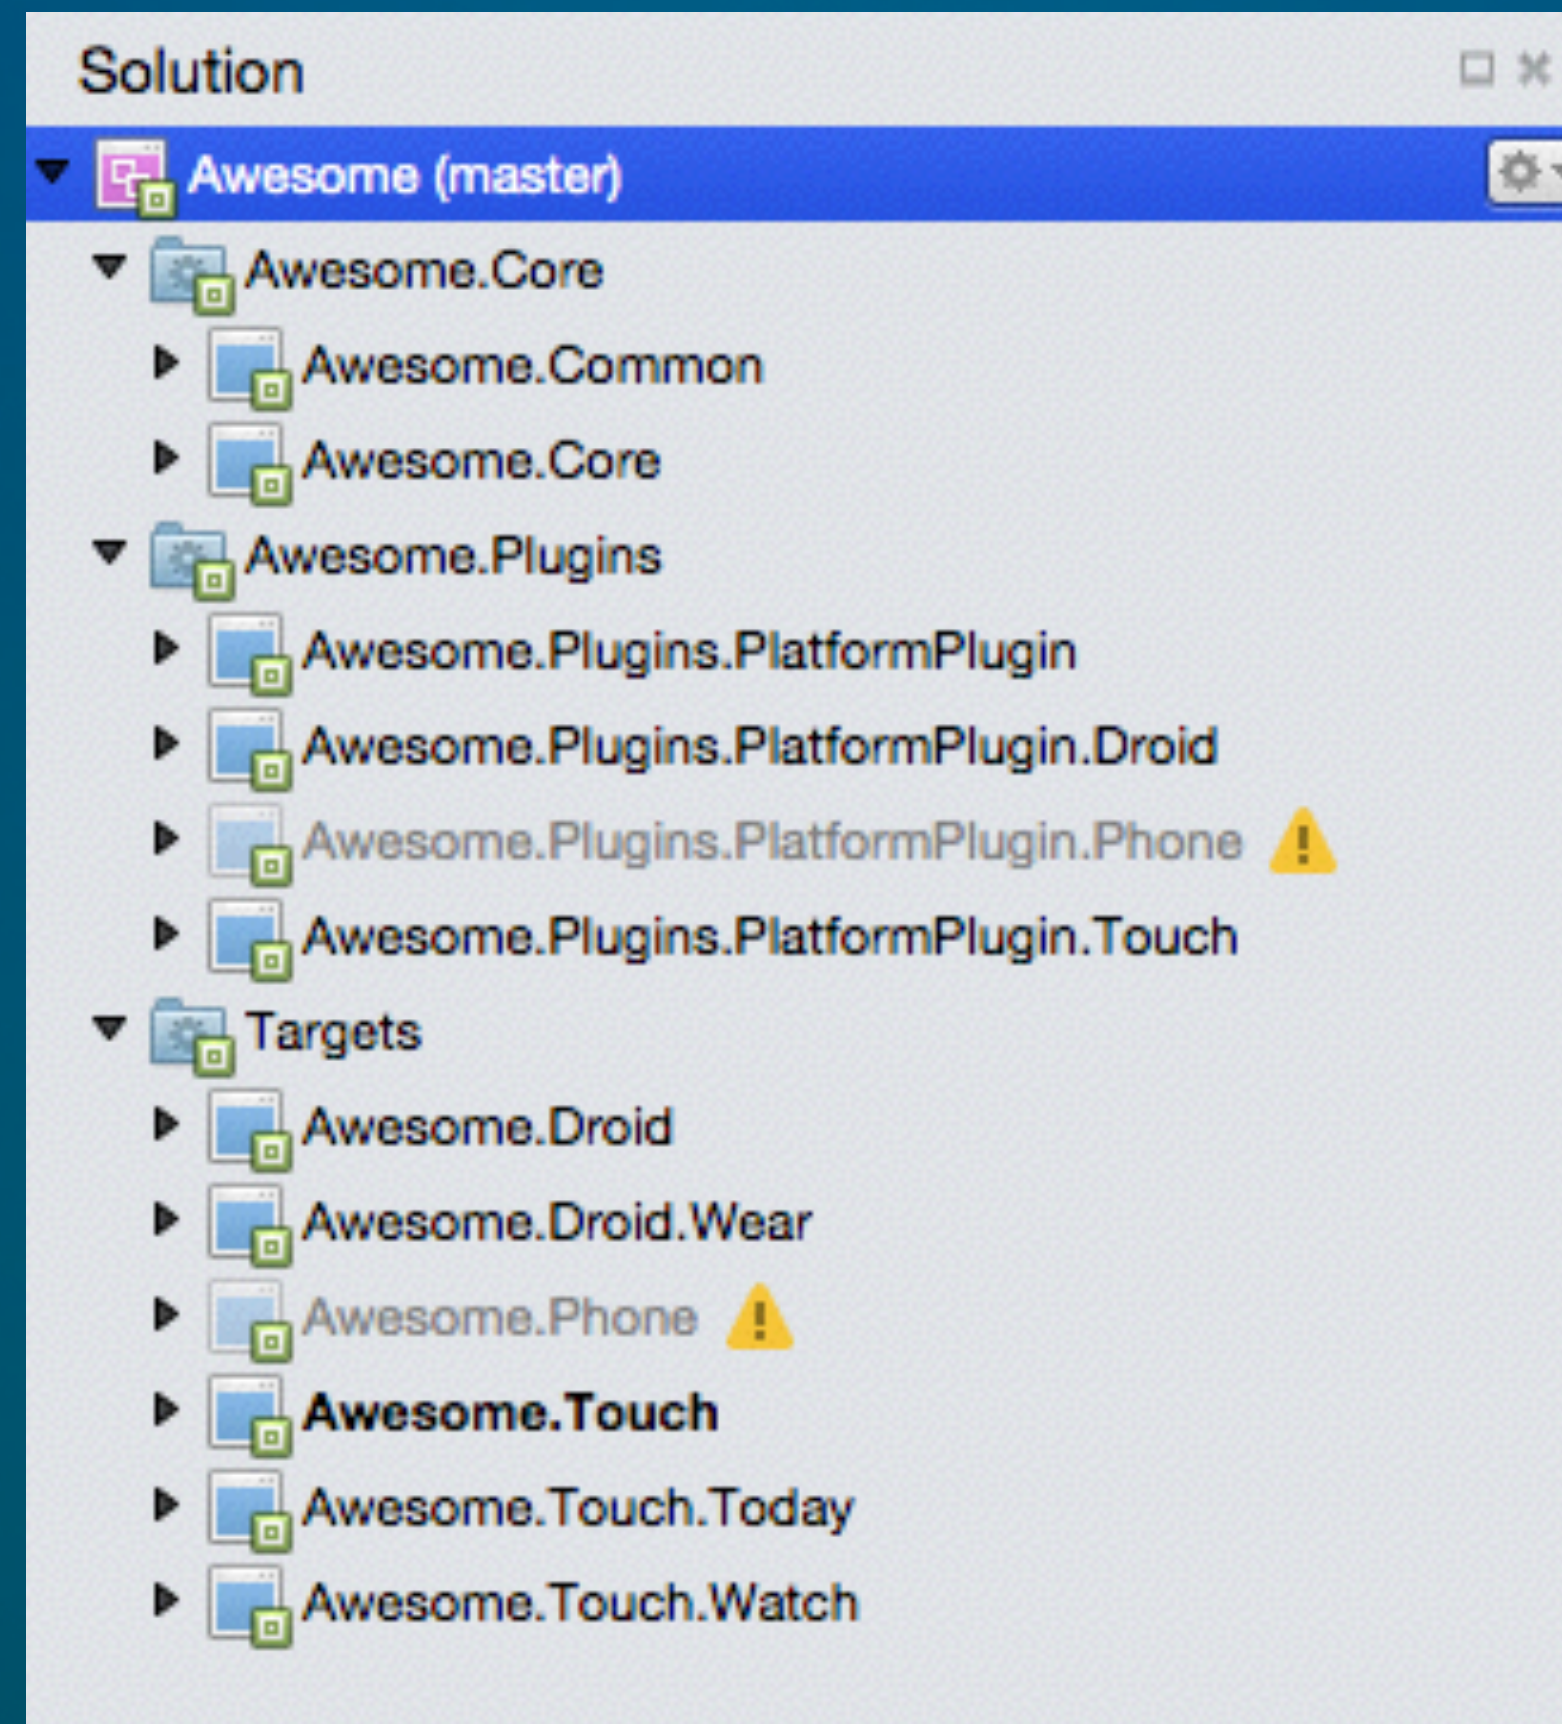

# Awesome App

- Cross-Platform
  - iOS
  - Android
  - Windows Phone
- Mvvm (cross)
- IoC

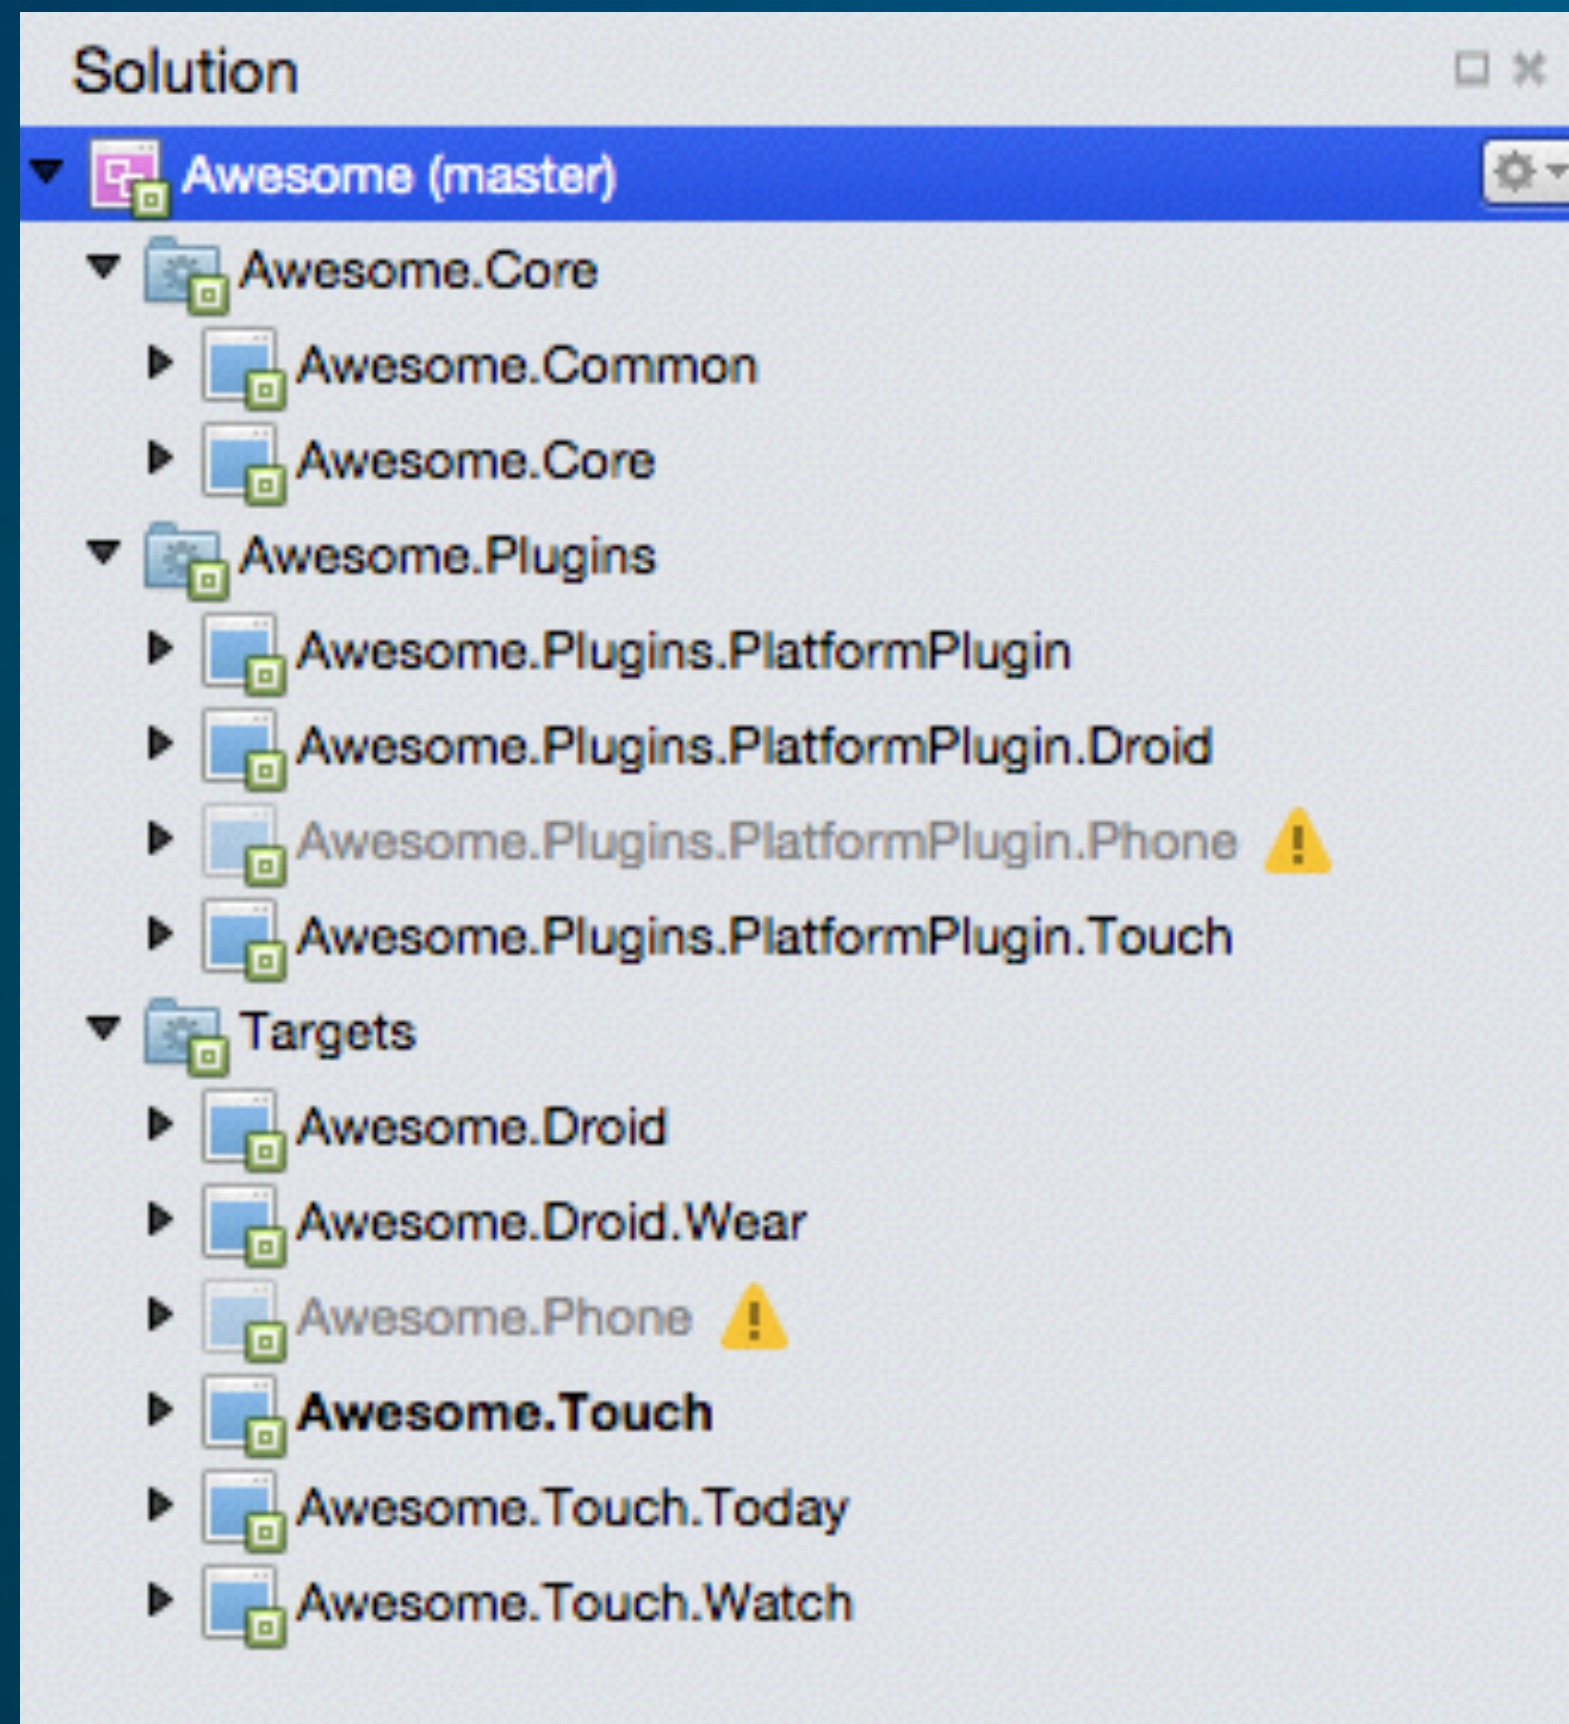

# Solution Management

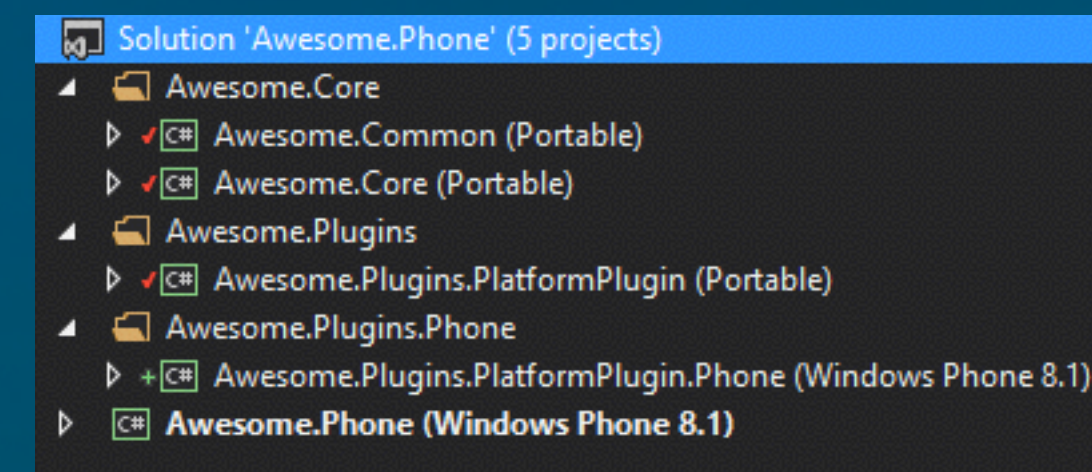

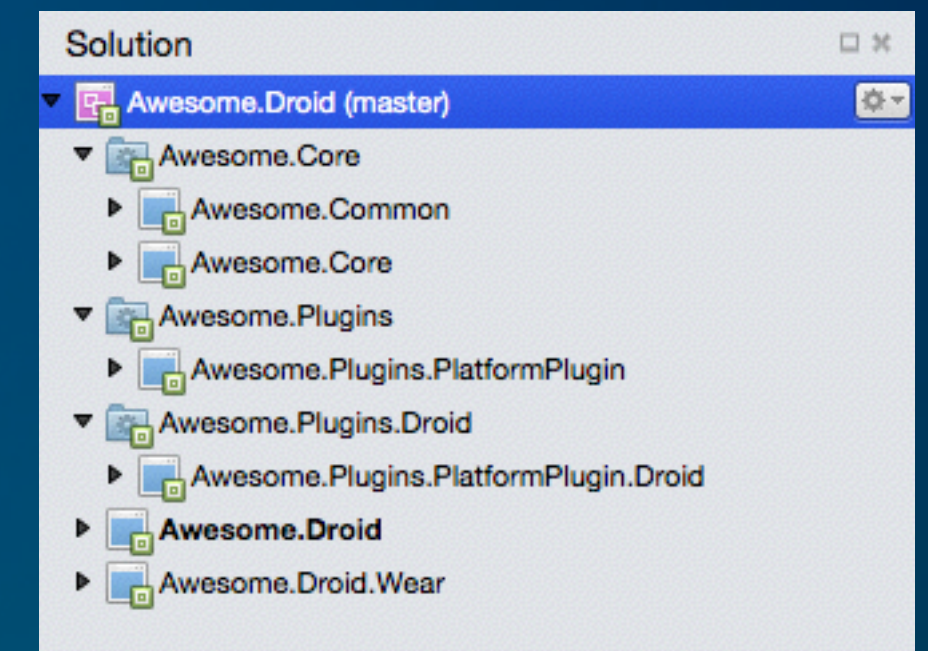

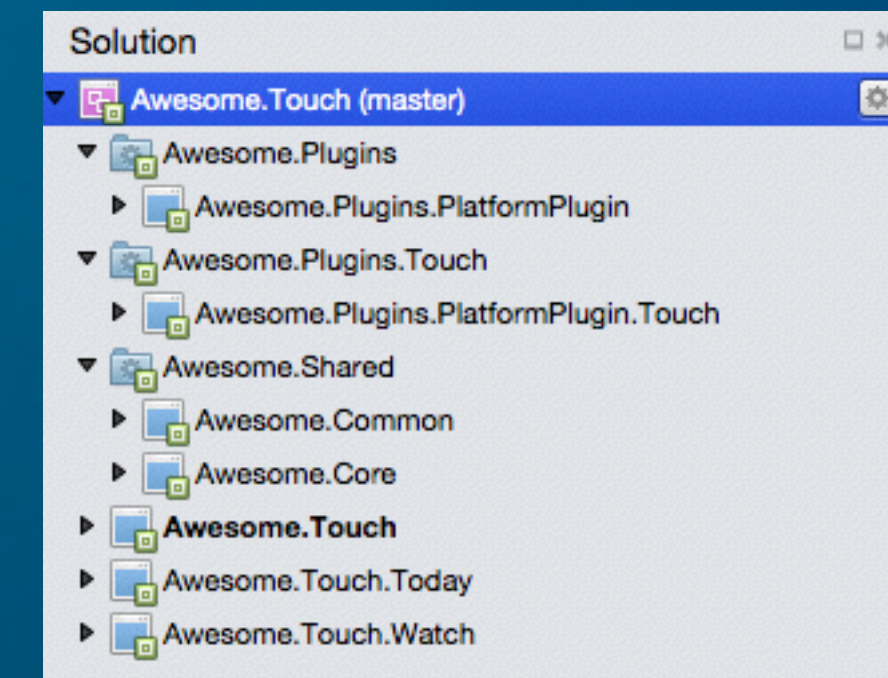

# Solution Management

VS

# Pros

- Common Code + 1 Platform
- IDE Loading Times

Microsoft Visual Studio

Preparing Solution...

# Pros

- Common Code + 1 Platform
- IDE Loading Times
- IDE Debugging

# #WTD?

## (What The Debugger?)

# Pros

- Common Code + 1 Platform
- IDE Loading Times
- IDE Debugging
- Source Control

# Cons

- Many Solutions
- Adding Common Code To Many Solutions

# Demo Time

# Questions ?

# Bonus
